We would like to propose for a 5 years deal for this Award, and we hope ARCASIA is able to collaborate with ARCHIDEX to together promote future architects and foster collaborations amongst ARCASIA members. We believe such platform will not only give mileage to ARCASIA, but exposure, learning and experience to young and upcoming architects in the Asian region and beyond.

We look forward to discuss this proposal further, such as judging criterias, etc and are open to welcome any further suggestions from ARCASIA.

Thank you.

Yours faithfully
