Attendee comments/suggestions:

During the Event, we have 1 hours sharing session and we received more than 40 written feedbacks and comments as summarized in below :

1. ARCASIA shall catch up to take proactive action in promoting SDG.
2. It is important to include SDG into the architectural education curriculum.
3. Cultural diversity and locality factor shall be considered for implementation of SDG in Asian countries.
4. ACPP can promote SDG by setting guidance for the government and developers Building laws can also be amended to give more support on SDG.
5. Adaptability of buildings and affordable living are also important SDG concerns.
6. Specific suggestions received on Committee’s Works :
 ACAE : The timing of TOY is crucial. Student Competition jury comments shall be shared for all students to learn from each project.
 ACGSA & ACPP : Combine knowledge sharing platforms shall be set & promote to all ARCASIA countries. R&D can be a long way for ARCASIA.
 ACSR : Social Responsibility shall be an integral part of the architectural education.
7. A following table indicated which of the 17 SDGs had been responded by the Committees during the Webinar. It was also confirmed that it is not necessary for the Committees to work on ALL 17 SDGs but focus on the most related SDGs to arrange the activities.

SDGs	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
ACAE				v					v	v							v
ACGSA			v			v	v	v	v	v	v	v	v		v		v

Way Forward :

ARCASIA to consider if a specific think tank / task force will be set up to coordinate the SDG promotion works.
