

13th Round Table Conference

**Hotel Radisson, Lazimpat
Kathmandu, Nepal**

ARCASIA's 13th Round Table Conference was hosted by The Society of Nepalese Architects (SONA) in Hotel Radisson, Lazimpat, Kathmandu, Nepal on January 18, 2023. The conference invited architects from many different countries divided into 03 main committees namely - ARCASIA Committee on Green & Sustainable Architecture (ACGSA), ARCASIA Committee on Young Architects (ACYA) & ARCASIA Committee on Professional Practice (ACPP).

The theme of the ACGSA conference was entitled - 'Resilient Architecture in Asia'. A topic chosen specifically to discuss the ability of today's incredibly complex building system and settlements, either rural or urban, to absorb shocks of climate change, resource depletion and destruction, natural disaster or energy crisis and bounce back to earlier stable state or flip to another more stable state. Design solutions that incorporate adaptation strategies while dealing with disturbance/ shocks was the focal point of this conference topic.
