

**THE
INDIAN
INSTITUTE
OF
ARCHITECTS**

COUNTRY REPORT - 2019
ARCASIA FORUM 20, DHAKA, BANGLADESH
3RD TO 7TH NOVEMBER, 2019.

BRIEF HISTORY OF THE INSTITUTE

The history of the Indian Institute of Architects (IIA) is one of absorbing interest. Unfolding over the years, it speaks in manifold aspects - of the struggles and influence of architectural education from one solitary centre throughout India; of the rebirth and youth of a profession which the Country had almost forgotten; of a struggle for existence and the need to have the meaning and value of Architecture and architectural service understood; of its attempts and experiments towards a new stage in the architecture of the country. In the Renaissance or reawakening of India, the Institute has its due place in the sphere of Architecture.

Its history is also one of men with vision and ideals, men who had at heart the welfare of the Profession of Architecture and who with such a goal helped lay and build the foundations of an Architectural future fraught with the finest possibilities conceivable.

The Indian Institute of Architects (IIA) is the National body of Architects in the country. Established on 12th May 1917, the Institute today has more than 21,700 members and plays a major role in promoting the profession of architecture by organising and uniting the Architects of India to promote aesthetic, scientific and practical efficiency of the profession both in Practice and in Education
