

ARCASIA
ASA Country Report
Year 2010-2011

COUNTRY REPORT' 10-11
by
THE ASSOCIATION OF SIAMESE ARCHITECTS
UNDER ROYAL PATRONAGE

Brief History of Institute

The Association of Siamese Architects (ASA) was established in 1933 with two fundamental objectives: to promote the architectural profession and to encourage sharing and exchanging information among members. To facilitate its operations, the organizational structure, as well as the bylaws, were simple.

Inactive during World War II, ASA revived in 1945. Though the Kingdom's name had changed to "Thailand", ASA retained its original name as a way of preserving a link to the founding principles.

From 1947, ASA concentrated on building an organization that served both the profession and society. Activities addressed the following areas:

- Professional practices
- Professional standards
- Professional ethics
- Code of conduct
- Cooperation among members in pursuing shared goals
- Promoting architectural research
- Professional advocacy

In 1954, ASA came under the Royal Patronage of His Majesty King Bhumipol Adulyadej.

In December 1965, a law administered by the Ministry of Interior came into effect requiring that architects be licensed to practice the profession. To oversee the licensing and monitoring process, the law established the Thai Architects Professional Practices Board (TAPPB) with 2 of 13 members from the ASA.

In 2000, reflecting the evolution of the design professions in Thailand, the Council of Thai Architects (COA) was formed and encompasses four main design disciplines: architecture, interior design, landscape architecture, and urban. ASA is a member of COA.

Currently, ASA services to members include:

- Ethical oversight
- Publications
- Lectures
- Seminars

Objectives

- Promote the continuing enhancement of the architecture profession in ways that are friendly to the environment and that preserve Thai traditions, while maintaining professional independence.
- Promote harmony and unity among members to enhance the stature and efficacy of ASA with a common focus on activities that benefit the profession and society.
- Serve as a resource for professional and technical information and advice for the benefit of members and society.
- To encourage, support, and promote education, research, and development that ensures the field of architecture progresses with the times.
- Cooperate with government agencies, as well as domestic and international organizations and institutions, to create an understanding and appreciation of the principles, role, and scope of the architecture profession as a means for fostering credibility and trust.
- Promote, develop, and perform the architecture profession in accordance with the highest standards of service and ethics for the benefit of members and the public.
- Define and certify the standards and rules for the practice of architecture.

**Current Executive Committee of the Board****Term of Office: 2011-2012**

Title	Name	
President	Mr. Thaweejit	Chandrasakha
Vice presidents	Mr. Sathirut	Tandanand
	Dr. Chalay	Kunawong
	Mr. Anuchar	Yusananda
	Mr. Chairat	Chantikul
	Mr. Prajead	Ngamsanguanpreecha
	Mr. Senis	U-pool
	Mr. Winyou	Wanichsiroj
	Mr. Somchai	Leelittam
	Mr. Ponchai	Saestin
	Dr. Wanchai	Mongkolpradit
Honorary Secretary	Mr. Tanin	Sribenjarat
Honorary Treasurer	M.L. Orn-umpai	Phananuratana
Honorary Registrar	Mr. Surachai	Akekapobyotin
Social Events Director	Mrs. Pennie	Arthachinta
Public Relations Director	Mr. Wirat	Pantapatikul
Executive Committee	Mr. Lersak	Niyomthai
	Mr. Narongwit	Areemit
	Mr. Sumet	Titareyakul
	Mr. Vittvat	Charoenpong
Manager	Mr. Yongyuth	Treeratpitak

Current Membership

Membership

As of June 2011, ASA has 7,240 active members and 4,034 inactive. Over the past years, membership growth has slowed, due to three main factors: the establishment of the Architect Council of Thailand (ACT); a change in law that eliminates ASA membership as a condition for licensing; and some confusion among architects as to the role of their profession and the role of ACT. However, during the past two years, the trend has reversed, as the ASA has clarified both its role and the member services it provides, plus organized a wide range of activities. In addition, ASA has added membership categories, including undergraduates and the general public, providing services that cater to their interests.

Types of Membership and Annual Dues

Member Categories	Qualifications	Membership as at June 2011	Annual Dues per Baht (USD)
Honorary	Distinguished persons who have been of substantial benefit to ASA and/or the profession and who have been nominated by a unanimous vote of the ASA board of directors.	18	-
Regular	A person granted a professional license under the Royal Decree governing architects and has not had such license withdrawn.	6,412	2,033/5 Years (\$66/5 Years)
Associate	A person with a bachelor's degree or above in architecture, as certified by COA or ASA, or a person who has received an associate degree, a certificate, or accreditation in architecture, as certified by COA or ASA, and has worked in the field of architecture for a period as set by COA.	820	535/Year (\$17/Year)
Supporting	A student enrolled in an architecture program at an educational institution recognized by COA or ASA, or any person interested in the field of architecture.	156	321/Year (\$10/Year)
		86	1070/Year (\$ 35/Year)
Corporate	Any registered company providing services in the architectural field, including design and related services, and must have at least one member of senior management who is a regular member of ASA.	101	8,500/2 Years (\$277/2 Years)
Remarks: Dues stated do not include a 7% VAT, nor the 100 baht application fee.			

Revenues and Expenditures

ASA annual revenue derives from the annual ASA Convention and Exhibition. Additional sources of revenue include: membership dues; professional and academic seminars; social events and activities; recreational activities; architectural tours; and publications (books, the ASA Journal, and the ASA Newsletter).

The ASA's annual operating expenditures amount to approximately 68 million baht (USD 2.2 million).

In 2000, ASA established ASA Fund as a fixed-deposit account to serve as the primary revenue source, to provide financial security, any annual operating surplus goes into the ASA Fund account and can not be withdrawn. ASA can use only the interest generated.

According to current ASA bylaws, Board members must propose an annual operating plan with budget for approval at least 60 days prior to the annual general meeting to the ASA Fund Committee, the membership of which consists of past presidents and honorary members. After approval, the ASA Board of Directors presents the plan and budget at the annual general meeting, along with a report of the prior year's performance.

The ASA Network

Headquarters

The primary operational role of the ASA headquarters is to provide services to members and architects in general through general administration (administrative and financial services) and by implementing the various aspects of the Board's annual operational plan: professional; technical; preservation; architecture; international; and recreation. In addition, the ASA provides up-to-date information to members and architects concerning building codes through publications, seminars, and inquiries. The ASA HQ office provides membership information, processes new members, renews memberships, sells publications and souvenirs, and runs an architecture library.

ASA Chapters

There are 3 unofficial, semi-autonomous chapters under the ASA umbrella located in three regions of Thailand: the North, Northeast, and South. Each of the chapters operates as a commission comprised of ASA members who practice architecture in the region. Chapter presidents are elected every two years with terms concurrent with the ASA president and each chapter has the same structure as the ASA with a Board. The chapters undertake such activities as an annual regional architectural exhibition; professional and technical seminars; architectural research; recreational events; support professionals in the region; coordinate in the implementation of the annual plan; and provide information to the ASA board.

ASA Center

In September 2008, ASA opened ASA Center at Siam Discovery Center for the purpose of promoting ASA to the general public, student, as well as our members. ASA center, being located in the heart of commercial district and with easy access by the mass transit system will be more convenient for everyone who wishes to contract us. The Center will provide information about ASA and architectural designs and products, organize exhibitions and seminars, as well as provide meeting place for our members. In addition, membership information, process of new members, publication and souvenir sales, and architectural library are relocated at ASA Center.

Annual Congress

The ASA holds an annual congress in May 2011. The congress had about 100 registered participants.

Legal status

ASA is registered as a private association under the laws of Thailand. After the establishment of the ACT (Architect Council of Thailand), all licensing and registration of architects came under ACT. ACT is, by law, a regulatory body for the design professions in Thailand and replaces the Thai Architects Professional Practices Board (TAPPB), which had been made up entirely of government representatives. However, the ACT Board is made up of a majority of architects, elected by ASA and ACT members.

At present, the ACT operates with an extremely limited annual budget that limits the ACT's ability to represent its members. The ASA provides financial support to the ACT in a number of ways, including paying the ACT's annual membership dues to the UIA of which both organizations are members.

Legal Status of the Architect in the Country

The Architect Act B.E. 2543 prohibits any person to practice the controlled architectural profession of all disciplines unless granted license(s) on particular discipline(s). Personal licensing by the council is derived from the Architectural Profession ACT B.E. 2508 and classified into four levels as follows:

- 1) Chartered architect
- 2) Professional architect
- 3) Associated architect
- 4) Specially-associated architect

A juristic entity engaging on business related to the controlled architectural practice must register with the council for a corporate license and must be operated under the license of personal architect(s).

Qualifications and requirements for licensing of both persons and juristic entities are stipulated in the Architect Council of Thailand ordinances.

International affiliations

The ASA has been a member of ARCASIA since 1970 and renewed its membership to UIA in April 2002. The ASA signed Memoranda of Understanding with American Institute of Architects (AIA) in 1992; with the Japan Institute of Architects (JIA) in 1993; Malaysian Institute of Architects (PAM), Singapore Institute of Architects (SIA), and Association of Laos Architects and Civil Engineers (ALACE) in 2006; Korea Institute of Architects (KIRA) in 2010 and Sri-Lanka Institute of Architects (SLIA) in 2011.

ASA entered into these relationships to exchange information about professional know-how, practices, and standards and to organize joint activities among organizations and their members. The ASA intends to enter comparable agreements with ASEAN countries, such as Myanmar, Vietnam, and Cambodia.

Tri-Nation

ASA has initiated joint collaboration with Malaysian Institute of Architects (PAM) and Singapore Institute of Architects (SIA) to organize Tri-Nation Meeting since 2009.

Principal Activities in 2010-2012

ASA has organized more than 60 events, including board and committee meetings; seminars; and study tours to neighboring countries, as well as social and sports events with an annual fund-raising gala dinner.

The ARCHITECT 2011 exposition

This is the largest; most complex annual event organized by the ASA and is handled by a subcommittee appointed specifically for this purpose. The subcommittee divides its work into two groups: The Building and Construction Materials Exhibition group and the Architectural Exhibition and Seminars group.

The Building and Construction Materials Exhibition encompassed 40,000 square meters in 2011 and generated gross revenues of 20 million baths (USD 651,678). The Architectural Exhibition and Seminars event displayed work by ASA-registered architectural companies and from all schools of architecture under the theme "Bottom Up".

Activities during the event included the following:

- ASA Experimental Design Competition 2010
- Architecture for All (Universal Design)
- ASA Theatre
- Architectural Design Student Workshop
- Green School Project
- Wat Theptidaram Worawihan Conservation Project
- ASA Vernadoc: Thai Sacred Architecture
- Kadeejeen: Hand-to-Hand Exhibition
- Community Art Network
- Thailand Boutique Award 2010
- ASA International Forum
- International Conservation Seminars
- Design Contest and Design Award Exhibition
- Venice Biennale Exhibition
- 84th Celebration of His Majesty King Bhumipol Adulyadej Exhibition
- Educational Exhibition in Architecture and Related Field
- Booth Architecture, Interior Architecture and Related Field
- Mud House Exhibition
- Home Repair Consultant
- ASA Green
- ASA Night
- ASA Club

Competitions/Awards

- ASA organized three sponsored architectural competitions. During the ARCHITECT 2011 Exposition, ASA also organized two Design Competitions for students and practicing architects. Every two years, ASA runs ASA Awards competitions: ASA Awards, ASA Architectural Conservation Awards and ASA Green Awards for the country's best architecture in several categories with Her Royal Highness Princess Sarindhorn presenting the awards.

Other activities

- ASA Experimental Design (Annual)
 - ASA Student Workshops (Annual)
 - ASA Trip (Biannual)
 - ASA Social Events and Seminars (Bimonthly)
 - ASA Golf (Annual)
 - ASA Badminton (Annual)
 - ASA Football (Annual)
 - ASA Manual Series:
 - Architectural Drawing Standard manual

- Construction Specifications manual
- Design for Building Safety manual
- Universal Design Code of Practice
- Anthropometry Guideline for Architecture manual

Member Outreach Programs

ASA provides architectural information to members and the public through various media;

- The bimonthly ASA Journal sent to all members and to governmental and academic organizations.
- The monthly ASA Newsletter sent to members and to governmental and academic organizations to keep them informed of ASA activities.
- ASA gains exposure through the broadcast media by participating in various radio programs intended to educate public about architecture and construction issues.
- ASA has had a website (www.asa.or.th) since 1997 with up-to-date information on various architecture-related subjects. Our members and the general public can contact ASA via the website at office@asa.or.th. ASA is currently enhancing the website to include downloadable forms, information, manuals, and building codes.
- ASA has had an online material information resource since 2009 with up-to-date information on construction materials, Construction Specification Institute Index and material price by Bureau of Trade and Economic Indices. Our members and the general public can access via the website www.materialinfo.net.

ASA Facilities

Opened in 1992, the current premises have offices, a meeting room, a library, a book center, and a mini-auditorium with one full-time manager and 18 permanent support staff.

After a major enhancement of the headquarters building seven years ago, last year ASA made further enhancements in many areas to improve services available to members and accommodate new staff. Improvements included:

- Better AV equipment
- Better furniture in the main meeting room
- Better facilities for the ISA
- Better furniture in the small meeting rooms

This year ASA has plans to renovate the old building to accommodate more activities for architectural students and the new generation of

architects. Current plans call for the following enhancement to improve services to members and any interested parties.

- A main auditorium (130 seats for theater and 70 seats for classroom) for seminar and social events.
- A meeting room that accommodates 20 seats
- A meeting room that accommodates a maximum of 8 - 10 seats
- Nakorn Sriwicharn" Library (over 1,500 architectural books)
- ASA Station (multipurpose activities area)

In 2009, ASA opened a branch in the Center of Business and commercial district called ASA Center. This Facility will provide easy access for the general public, students and ASA members to use our facility, meeting, seminars, and student workshop can be held at ASA Center. There is also an architectural library for ASA members to use free of charge.

- A meeting room that accommodates a maximum of 6 - 8 seats
- A meeting room that accommodates a maximum of 8 - 10 seats
- Wi-Fi Internet Center
- Service Counter
- Semi-Permanent and Temporary Exhibition area.

Current programs

During this period, ASA is continuing to implement the policies stated in the plan of the previous board that included expanding services to the public and organizing activities for architectural students, such as:

- Implement policies consistent with His Majesty the King's pronouncements in the areas of architecture, the environment, community development, the public benefit, etc.
- Extend the reach of activities to include organizations or agencies related to architecture, such as provide training for members and the public in cooperation with government agencies or private organizations that participants can apply in their lives.
- Emphasize preparing the new generation of architects, particularly those currently studying architecture, through the Young ASA project. Ensure they understand what the work of an architect consists of and involve them in ASA activities while they are still students. In addition, invite academic institutions to play a part in developing ASA activities to help ensure their students get the maximum benefit from ASA activities.
- Provide additional services to members and the public through the Institute of Siamese Architects (ISA), which serves as a center for technical services, training, and seminars, plus for information about professional techniques, building codes, and other matters relating to the architecture profession.

- A center that brings together experts in traditional Thai architecture and building preservation with a plan for supporting architectural preservation to benefit the public.
- Strengthen Thai architects for liberalization by fostering good relations and cooperation between Thai and foreign architects through international memoranda of cooperation (MOUs) with many countries through international seminars, architectural observation tours, and joint architecture exhibitions.
- Develop a digital registration system to facilitate information searches and updating.
- Make the ASA Journal, ASA Newsletter, and the ASA website bilingual in Thai and English to provide international access to information about architecture in Thailand.

Professional Practice and Social Responsibility Programs

During 2010-2011, ASA has conducted professional practice and social responsibility programs include:

- U-bon Ratchatani City Hall Design Competition
- Discussion and negotiation with the Thai Government on architectural Design Fee standard for government sector projects.
- Lan Chaloeprakiat Design Competition
- Architecture for all
- Discussion with Thailand Industrial Standard Institute on Standard Specification for Construction and Materials
- Phra Maru of HRH Princess Galyani Vadhana Design and Construction Data Collection Project
- Wat Theptidaram Worawihan: Scripture Hall Conservation Project
- ASA Vernacular Documentation
- Revitalized Public Spaces of Kadeejeen Cultural Heritage
- Revitalization of Bang Prakong Water-base Communities: Case Studies of Sothorn, Baan-Mai and Saint Paul Communities.

CPD & Issues Facing CPD Programs

Over the last few years, the CPD program has been introduced to registered architects, but hasn't been implemented. When the CPD is implemented all licensed architects will have to successfully obtain annual requirement of 60 credit points in a 5 year period and allowed to have 20 credit points maximum per year.

- Seminars and CPD Programs organized by ASA are as follow:
 - Design for disaster
 - Condominium and Office Building Design

- Building Cost Estimation
- Construction Specifications
- Management of Design Firm
- Environmental Impact Assessment
- Feasibility Studies
- Construction Project Management.
- Resort Design in Various Design
- OTTV & RTTV Workshop
- Architectural Computation.
- Sustainable Building Design & Green Building Assessment.
- Structural Design for Architects.
- Lighting Design and Case Studies
- Building Materials Lecture Series
- Building Codes and Regulations

Green and Sustainable Programs

ASA has established a working group call 'ASA Green Committee' to take responsibility about promoting green building design and construction programs like publications, seminar, lectures, and green building award for many years. In 2010, ASA, in cooperation with the Engineering Institute of Thailand under H.M. the King's Patronage (EIT) have established the first Thai Green Building Institute (TGBI) and developed the Thai's Rating of Energy and Environmental Sustainability for New Construction and Major Renovation (TREES). The Green Building Standards uses in Thailand are as follows;

- Site & Landscape
- Water Conservation
- Energy Conservation
- Materials & Resources
- Indoor Environmental Quality
- Community, Context & Culture

ASA Green and Sustainable Seminars and Workshops include;

- 5-Day Training Workshop on Design and Construction of Green Building
- 2-Day Training Workshop on Sustainable Housing
- Eco/Green Building Technology and Case Studies Seminar
- Sustainable Social Housing Initiative (SUSHI) Seminars
- Green Facility Management
- Green Building Design and Management

Other activities

- Database of Green products and Technologies for housed in Thailand
- A Shot film project about sustainable housing called, "Letter from a Polar Bear"

Future plans

The ASA has plans for generating stable revenues and for adding more activities, as follows:

- Bangkok Design Festival to be held annually and staged through out Bangkok to promote designs to general public.
- Open new international market with the Department of Export Promotion, Ministry of commerce and organize architectural Exhibitions to showcase "Thai Designs".
- Discussion and negotiation with the Thai Government on architectural Design Fee standard for public sector projects.
- Contribute and encourage design competitions to be held and staged through out the country.
- Cooperate with communities, government agencies and other organizations to develop a community through public participation.

Problems and Issues Facing the Institute

- CPD Points
- Fee Negotiation with Thai Government
- Professional Practice
- Cross Border Education and Training Program
 - Date of Beginning School Term
 - Transfer of Credits
 - Lack of International Accreditation System in Thailand
