CALL FOR PAPERS

Architecture in a Changing Landscape

Never before in the history of humanity has one witnessed such unprecedented speed and nature of change in every facet of human life as happening today. From the technological to the political, from climate to migration, and from cities to regions, unprecedented change and transformation, and at a remarkable rate, mark our epoch.

Architects are negotiating everyday with increasingly volatile contexts of shifting economic, physical, technological and geo-political landscapes. In order to address many facets of these undeniable phenomena, the theme, Architecture in a Changing Landscape, is expected to evoke thoughts, innovations and ideas appropriate for the present and future state of architecture.

ARCASIA
STUDENTS'
ARCHITECTURAL
DESIGN
COMPETITION
2019

A Place for Resolution

We live in a time of many "conflicts". These conflicts are of varied natures. Some are social, cultural, religious; some are spatial, territorial, some are environmental and so on. The student is to identify such a conflict and to design a "Project" that attempts to find a "Resolution". One should venture beyond the ordinary boundaries of Architecture- not only be aware of one's surroundings and events but also attempt to seek answers. The project should show us how "an Architect" can bring about a "Resolution" in a "Conflict", and demonstrate the architect's role as a thinker, a reformer, an activist, and a visionary.

Submission Deadline
July 31, 2019
