## ▪ **Proposed programs on particular issues**

### SOCIAL RESPONSIBILITY

- **To support ACSR programs and activities**

#### **Disaster Risk Reduction**

- Mapping of ARCASIA Disaster Centers/Organizations in each Member Institutes and compile necessary information
- Exchange information on architectural emergency procedures in terms of risk reduction as well as on heritage buildings
- Networking with similar organizations

#### **Architecture for the Less Fortunate**

- Initiate networking of ARCASIA's architects working on this issue
- Exchange of information and documentation of local renewable materials under the spirit of universal access to drinking water and sanitation, and cities without slums
- Covering both issues: to run annual competition to design ready-to-build temporary shelter/community hall with limited budget

## ▪ **Proposed programs on particular issues**

### PROFESSIONAL PRACTICE

- **To support ACPP programs and activities**
- Handbook on architectural practice (previous ACPP program)
- Dec 31, 2015 officially starting of AEC and ASEAN MRA as platform for cross-border practice. Tend to have different treatment for Non-ASEAN foreign architects.
- To raise awareness on this issue, propose workshops to elaborate this issue with objective to giving substantial feedback to ASEAN Member States regarding cross-border practice within Asia region.
