

34th Council Meeting on 6th October 2013
Summary of Issues Arising from Presentation by Member Institutes

IAB

- IAB is formulating their Green Building Code - others to share with IAB.
- IAB could share their accreditation and CPD frameworks.

ASC

- ASC could share their themed researches and competition guidelines.

HKIA

- HKIA could share the 'Architectural Teaching Kit' for secondary students, HKIA daily, CPD framework and 'Building Environment Assessment Method' for certification of green buildings, competition guidelines.

IIA

- IIA is Amending Architect's Act and this could be shared with others. Those countries with established Architect's Act such as PAM, SIA, UAP could also share theirs with IIA if required.
- IIA could share on accreditation framework and their 'sensitization program' and program of 'role of Architects towards Seismically safe built environment'

IAI

- Share 'Ethics and code of conduct to introduce professional ethics' for students
- others to share with IAI on green rating tools since IAI is developing one

JIA

- JIA could share their initiatives on Social responsible programs and proposal on barrier free city and architect's role for society.
- To also share on their experience dealing with urban development pre and post Olympic

ALACE

- ALACE is a fairly new Institute and programs that can be shared with ALACE by others are CPD framework, green rating, competition guides etc.

AAM

- AAM's focus is on architectural education and could share their CPD framework and issues on education with other institutes.

PAM

- PAM requested for other institutes to share their experience with 'Competition Act' and affordable housing.
- PAM could share green rating tools, compulsory CPD framework, Architect's Act and design competition guidelines with others.

UMA

- All other Institutes are requested to support the 'Ulaanbaatar Declaration '.

SONA

- SONA requested to streamline involvement of member Institutes in regional organization. In view that members of SAARCH and ARCASIA Zone A are similar, to consider collaborative activities and programs so that resources and effort are not duplicated.
- Other Institutes to share the design competition guidelines with SONA.

IAP

- The Roundtable resolution on sustainable design would be circulated to all. All Institutes to give support to adopt the resolution. This would be an initiative promoted by ACGSA.
- Internship programs and research journals as proposed by IAP could be developed jointly with ACAE.
- Other Institutes could share issues on education with IAP and vice versa.

SIA

- Key issues are on fees sustainability and to lobby to reinstate the fees benchmark. The problem on fees is common to most Institutes and proposed to make this one of the agenda under ACPP to address.
- SIA to share programs initiated to address manpower and productivity including standard specification, Building Information Design Objective Library, design detailing with others.
- SIA could also share experience on the concept of early contractor involvement and whether the model is good to be adopted by others.
- SIA to share on how to address the influx of foreign architects, as SIA is the most liberated Country for architectural profession within the Asian region.

KIRA

- KIRA could share 'Experiencing Architecture for Children' with those who are interested in promoting awareness of architecture at school level, similar to the initiative by HKIA.
- Programs on promotion of young architects awards could be shared with others.

SLIA

- SLIA could share their 'Practice Manual' and 'Building Performance Index' with ACPP and others.
- The proposed procurement system with the establishment of consulting unit is an interesting and great concept if the government adopts it. SLIA could share this with others.

ASA

- Others to share on the accrediting of schools with ASA as ASA is facing problem on this.
- ASA could work with ACAE on the internship programs which ASA is interested in
- Others could offer help to ASA on the framework of Compulsory CPD I.e. PAM, SIA etc
- Green rating tool 'TREES'. PAM and SIA could advise ASA how rating could be done before the building is built.
- ASA to share on initiatives and programs for social responsibility.

VAA

- Architect's Act is being proposed. Others with Architect Act could offer help to VAA on this.
- Others could also share information on education and green rating tools with VAA

BIA

- BIA is a very new Institute and a new member of ARCASIA. BIA to identify areas which they need assistance from ARCASIA.
