**WHAT IS SDG?**  
Sustainable Development Goals

The Sustainable Development Goals (SDGs), otherwise known as the Global Goals, are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity.

These 17 Goals build on the successes of the Millennium Development Goals, while including new areas such as climate change, economic inequality, innovation, sustainable consumption, peace and justice, among other priorities. The goals are interconnected – often the key to success on one will involve tackling issues more commonly associated with another.

<b>No Poverty</b> 	<b>Zero Hunger</b> 	<b>Good Health And Well-Being</b> 	<b>Quality Education</b> 
<b>Gender Equality</b> 	<b>Clean Water and Sanitation</b> 	<b>Affordable and Clean Energy</b> 	<b>Decent Work and Economic Growth</b> 
<b>Industry, Innovation and Infrastructure</b> 	<b>Reduced Inequalities</b> 	<b>Sustainable Cities and Communities</b> 	<b>Responsible Consumption and Production</b> 
<b>Climate Action</b> 	<b>Life Below Water</b> 	<b>Life on Land</b> 	<b>Peace, Justice and Strong Institution</b>
