

ARCASIA Committees Program (2020) ***Staying together in the wake of COVID-19 pandemic***

Further to the virtual meetings held over ZOOM on May 1 & May 8 between the Chairmen/ Deputy Chairmen of ACAE/ACPP/ACGSA/ACYA as well as the Vice Presidents (Zone A, B, C) and I, President ARCASIA, attach please find is a Consolidated Programme (draft 1).

I have summarised further and the programme of activities listed are to be conducted over a period to 3 quarters (ending by Dec 2020 or till Feb 2021)

Please review.

The programme will be discussed on the Special OB/CC meeting to be held on May 9, 2020 @ 1 pm (SGP time)

	June-August	September-November	December-February 21
ACPP/ACGSA/ACSR	Formulation of COVID-19 Task Force. The Importance of Architect's role in this pandemic	Work on CPD by Task Force	Deelop / harmonize Green Building Rating System that takes health and well-being into consideration
	Survey of the problem (10 point questionnaire survey analysis by AEA)	Revisions in Client Contracts and Fees wrt new Electronic systems	New content in design requirements: How to improve indoor air quality, minimize contamination, ventilation systems in buildings with low energy consumption
	Establish COVID-19 database & social media platform to share information. Collect information of current projects/assisting measures carried out by respective institutes	The new look of Professional Practice – seminar with teachers (with ACAE)	Design Competition that redefines lifestyles, design concepts, construction techniques and use of materials considering infectious diseases. (with respect to sustainability)
	Investigate and make lists of their countries' provision facilities which can be used in emergency	Investigate and gather various kinds of construction methods / prefabrication / modular ideas (temporary hospital room, smart home, new normal idea etc) to be used as future provisions against disaster (ACPP? ACSR? ACYA?)	Healthy building check list, how to observe, inspect and improve their own buildings
	Sustainable construction and ways of working at site: arrangement of construction site plan, digital web cam site monitoring, virtual meeting, seek local materials, less CO2 emission and contamination, sustainable methods in context with local culture/rules. (ACPP? ACYA?)	Developing documents or design guidelines on solutions for permanent resilience. (ACPP? ACAE?)	Research & information sharing/exchanges among the group & other organizations like UIA, AIA, CAA etc - via ACSR database/social media platform.

	June-August	September-November	December-February 21
	Explore & assist the communities at large by empowering livelihood through ACSR projects; awareness campaign; assist governments to build temporary hospitals, quarantine centers & adaptive reuse of existing facilities; assist medical professionals with safety supplies & sanitation & social distancing requirements as stipulated by WHO	Develop / implement resiliency in constructing buildings, disinfecting existing buildings, health + well-being, self – sufficient buildings and communities. Living with nature / vernacular concept in new context. School, home design, city plan, Urban farm for food security	Awareness/ Social media platform/ database Collection of information & identifying the issues of disaster in the region & prepare ACSR database under AEA
	Support methods to Younger Architects by Senior Architectural Firms (with ACYA)	Investigate and make lists of their countries' provision facilities which can be used in emergency. (ACSR?)	Explore how ACSR can offer help to communities – empowering labour force, improve livelihoods basic requirements like access to learning for poor
	Finalization and Sharing of various SOP's wrt Sites and Office (AEA)	AHPG to explore 'save the world economy' by promoting adaptive reuse of heritage buildings; to establish sustainable strategies & reduce capital expenditure	ACSR to explore & create projects to help & workout mechanisms for schools by providing online facilities
	To promote construction of working environment, safer places & help to influence policies for public safety and other social distancing requirements (ACPP? ACAE?)	Architects & their practices to be empowered by means of new technology for future practice environment; training, learning & engaging in the new working paradigms – (ACCP?)	Establishment of ACSR disaster vigilant mobile app
	Support methods to Younger Architects by Senior Architectural Firms (with ACYA)	Review & recommend safety measures & policies for construction workers & their working environment – assist policy makers & decision makers (ACPP?)	Help to facilitate digital infrastructure provision to less privileged school children
	Establish ARCASIA Heritage Preservation Group (AHPG)	To assist & explore low cost new construction methods, identify, promote, educate & awareness (all committees to attend) (ACPP? ACGSA?)	ACSR COVID-19 lessons learnt manual for future use (ACPP? ACGSA? ACAE?)
		Explore avenues, means & ways to assist unemployment problem through to ACSR innovative projects for diversification	AHPG to launch tangible saving of reusing & economic gain analysis booklet
