**Subject:** missing submissions by ARCASIA OBs

Dear friends,

in a few days we will soon meet in Lahore for the OBmtg.

When we decided to have paperless meetings it was to make our procedures more sustainable and to streamline and speed them up as well.

The drawback seems to be that reports are not submitted in time because files can still be copied on the spot, the same day of the meeting.

Of course that is possible, but the meaning of collecting in advance the documents for the handout is that it gives participants the time to read them well before the meeting so that no time is wasted in swapping usb keys, copying files and in having to read and understand documents for the first time during the meeting.
