Proposed Project Booklat

United Architects of the Philippines' (UAP) Corporate Social Responsibility initiative is tagged as

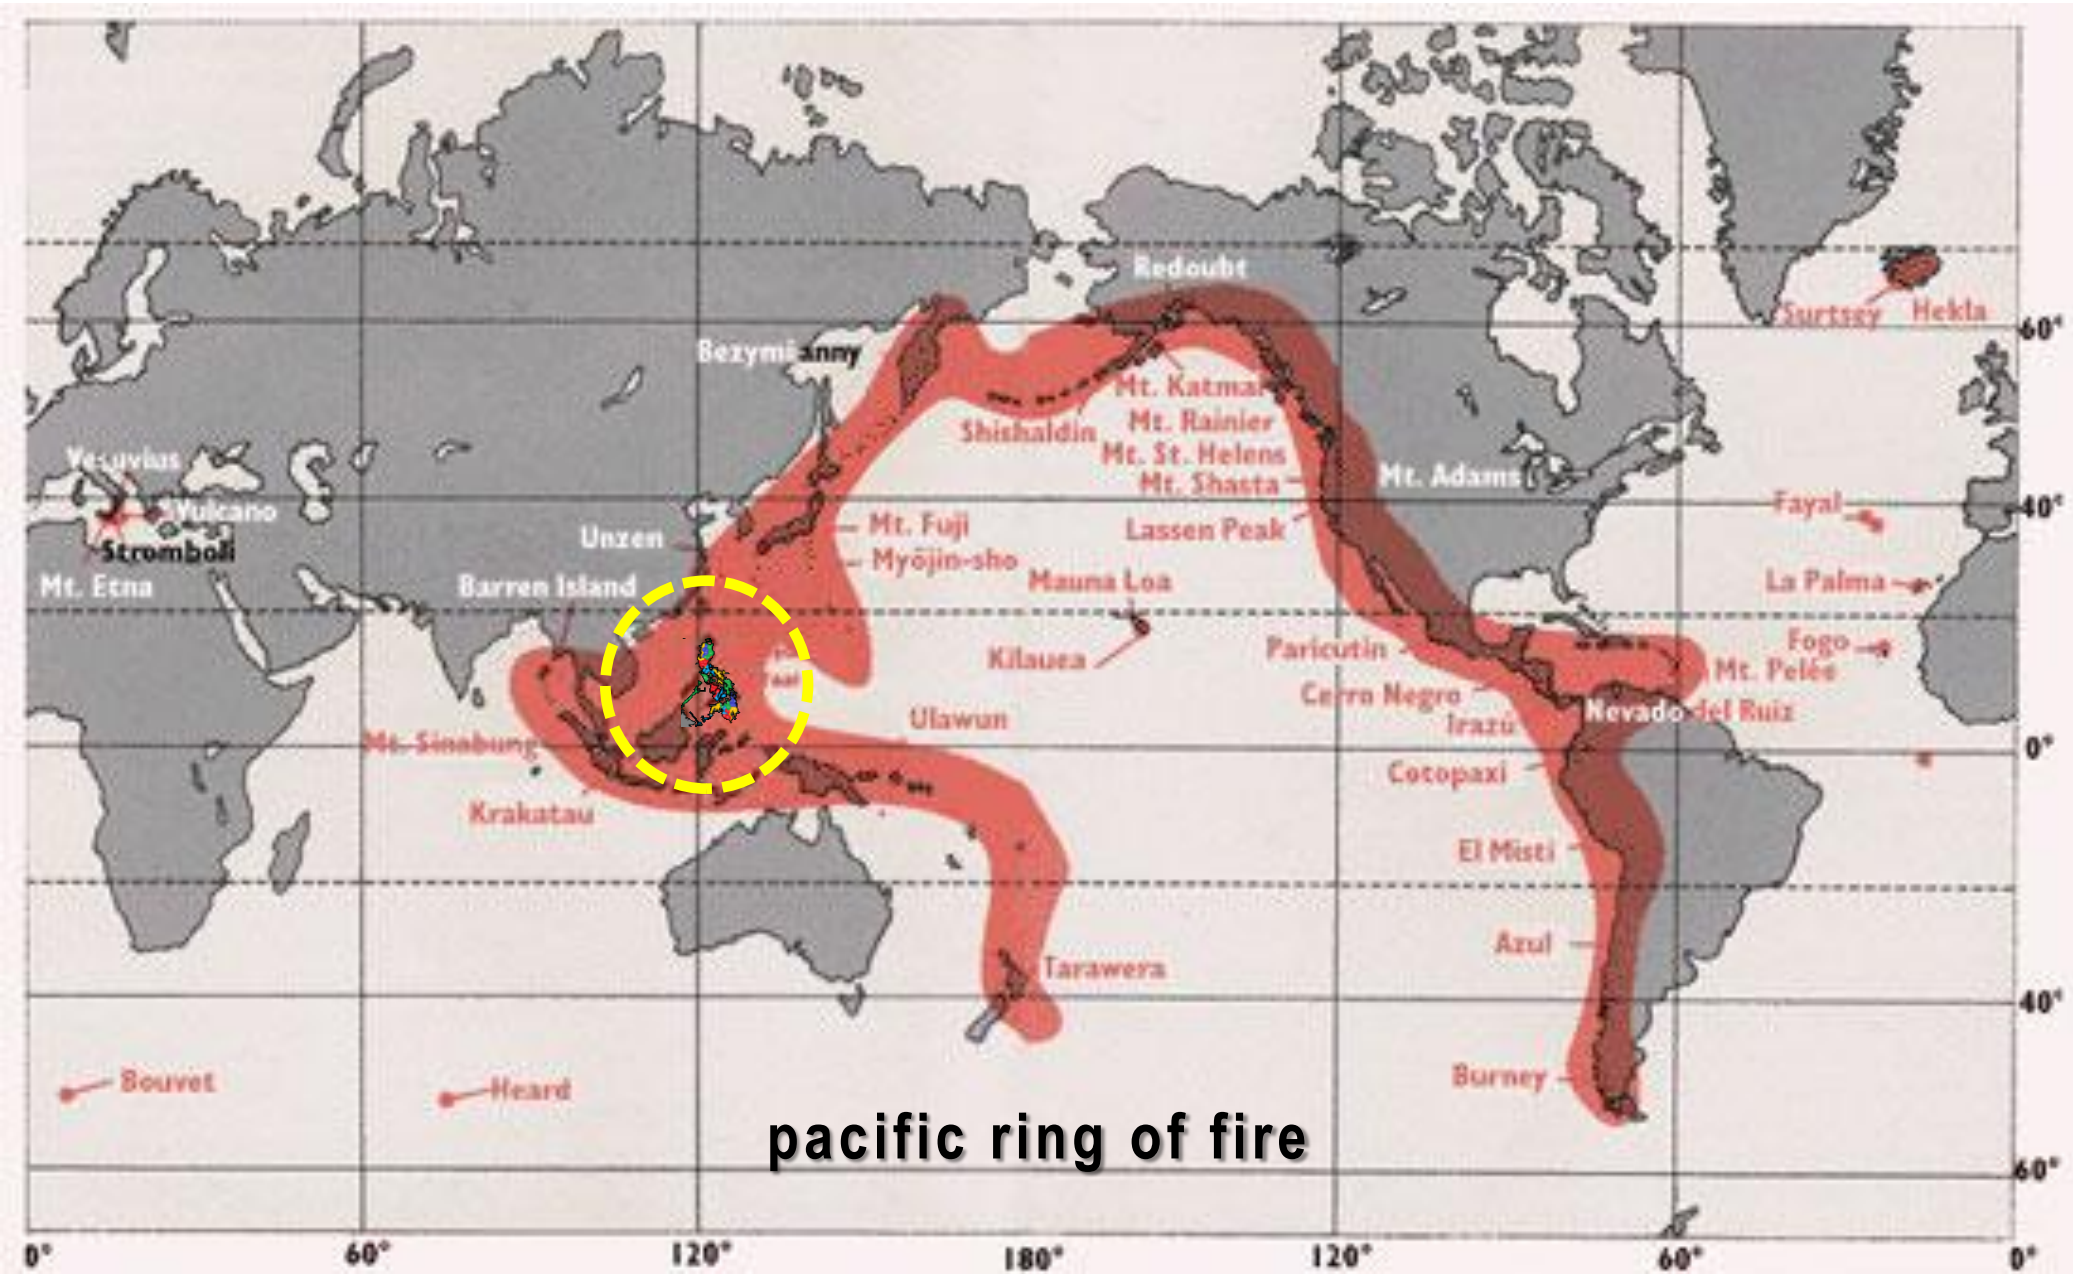

“BAYANIHANG ARKITEKTURA”

“Creating shared value for society, the environment, and our organization defines the corporate social responsibility of the UAP.”

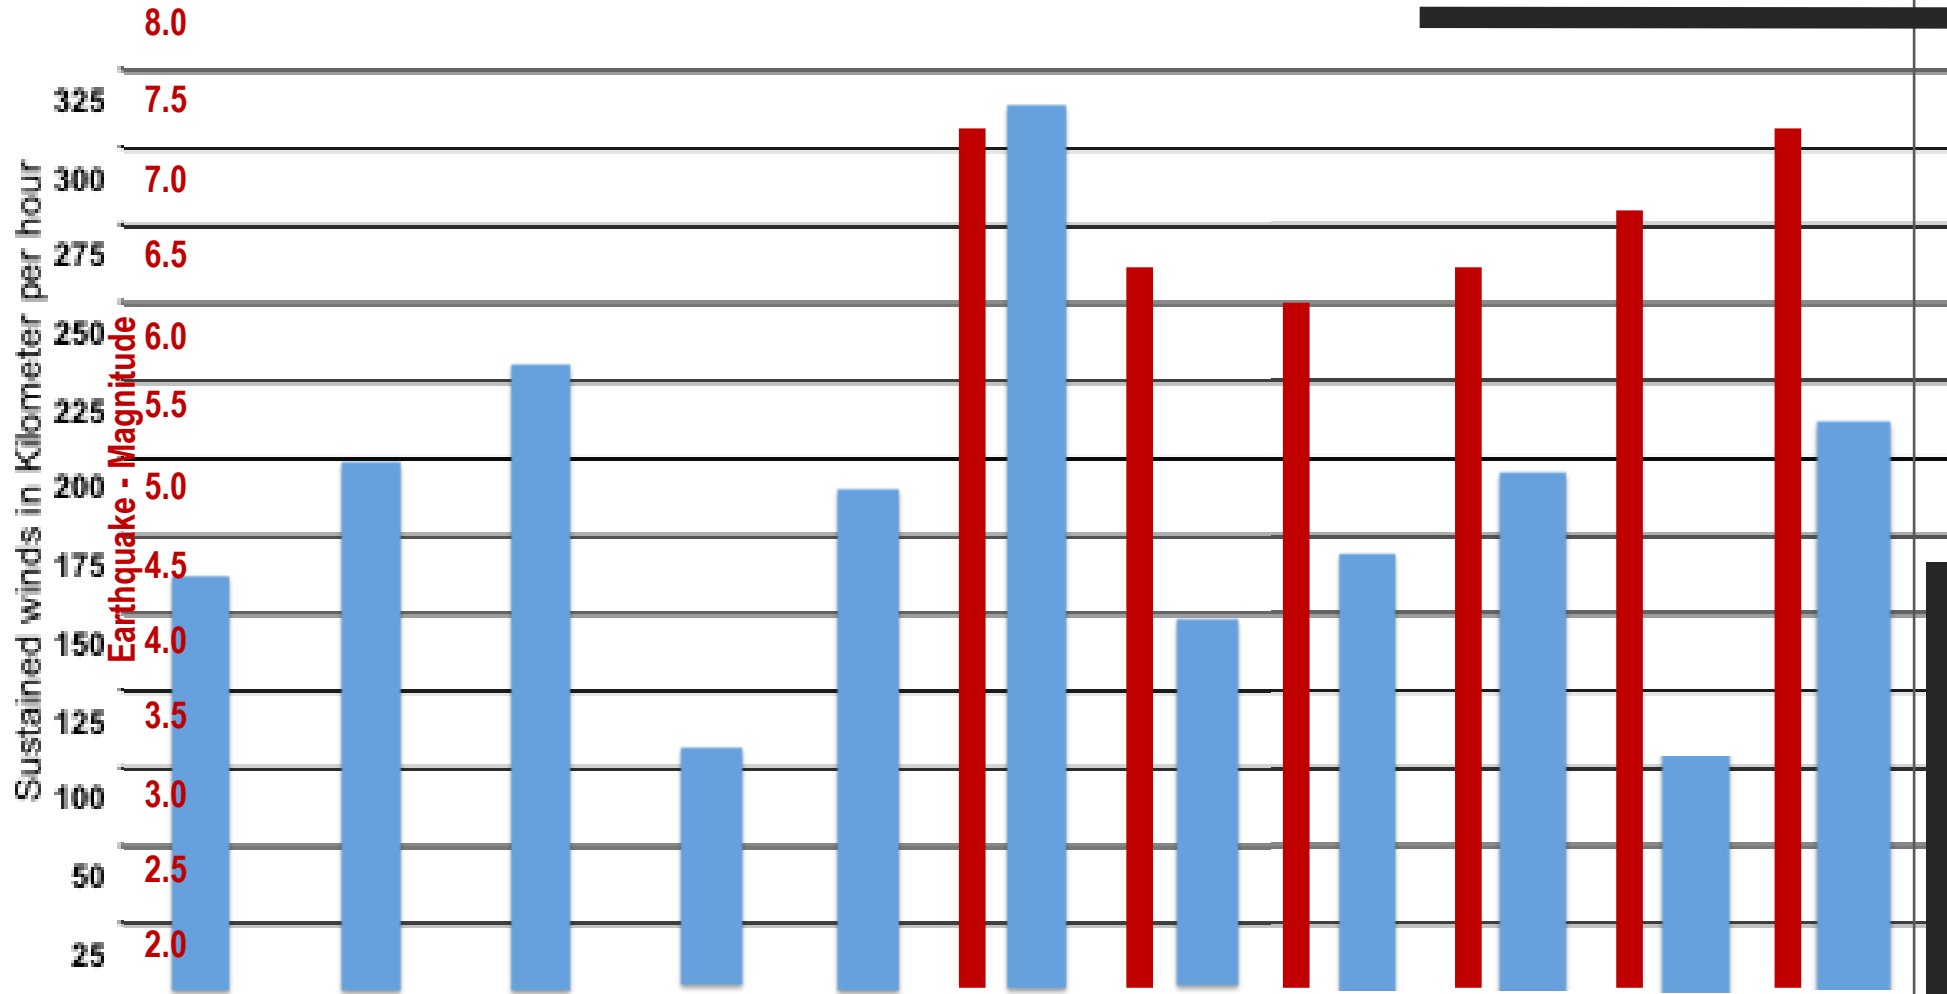

Architecture should serve the **community in a socially responsible and sustainable manner**. In order to achieve this, the architecture profession lead change through understanding of human, environmental, societal and cultural challenges and the consequences of professional activity.

At the United Architects of the Philippines, we do recognize that our **social, economic and environmental responsibilities** are integral to our experience. We take our Corporate Social Responsibilities seriously and the objective of this presentation is to provide a guide for all stakeholders on the values which underpin the conduct of our organization and our relationships with our stakeholders, allied professional in which we draw strength.

The **Zamboanga City crisis** or **Zamboanga Siege** was an armed conflict in Zamboanga City, Philippines last September 2013.

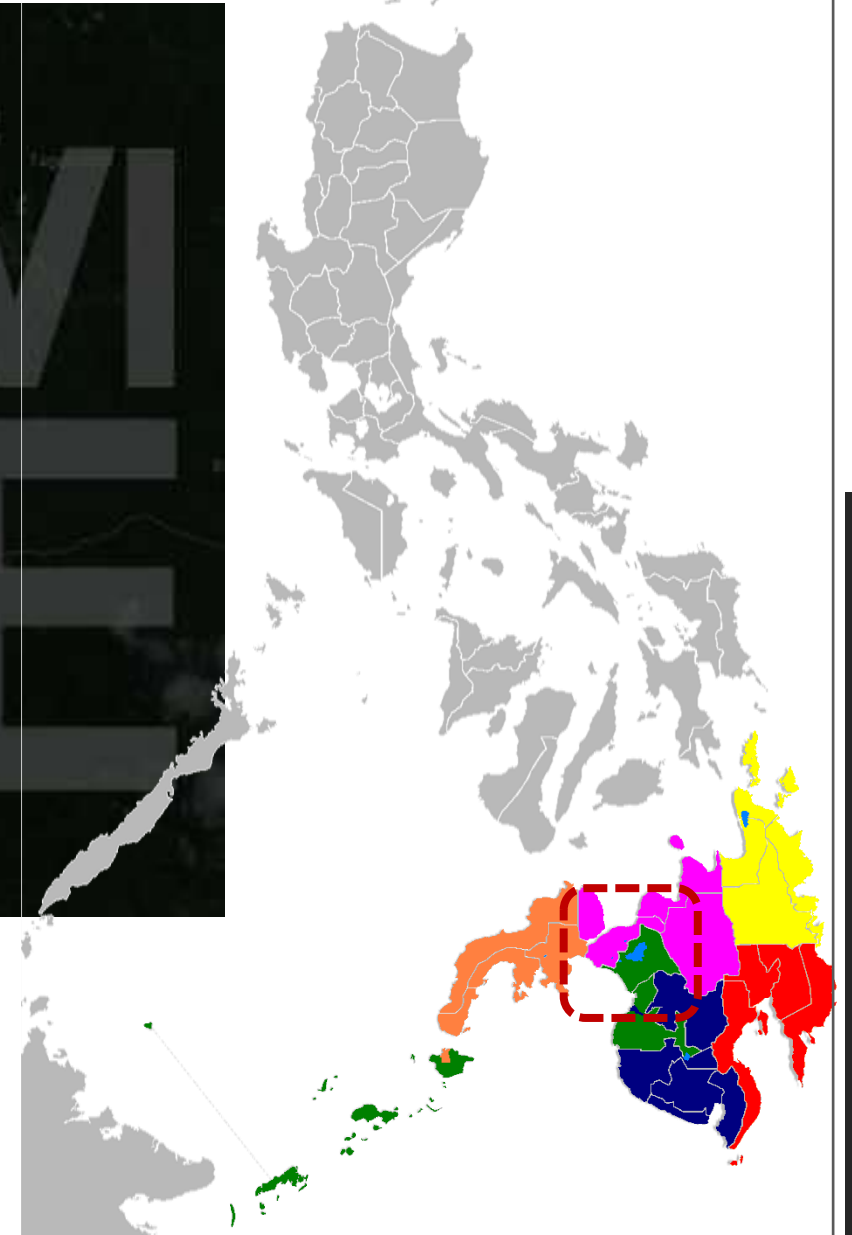

An estimated 46,000 jobs were lost or disrupted due to the conflict and more than 6,600 homes were destroyed by fire. The total damage is estimated at US\$73.2 million, according to the government

The **BATTLE OF MARAWI**, also known as the **SIEGE OF MARAWI**, was an armed conflict in Marawi, Lanao del Sur, that started on 23 May 2017,

man-made disasters

between Philippine government security forces and militants affiliated with the Islamic State of Iraq and the Levant (ISIL). The battle also became the longest urban battle in the modern history of the Philippines.

Bito Elementary School

29 schools were damaged due to Marawi siege and numbers of families were displaced in nearby areas.

One of the schools situated within Marawi City, right after the ground zero is Bito Elementary School.

This school complex has a lot of potential to accommodate students that suffered from the 29 damaged schools.

Though it was dilapidated not because of war, but once rehabilitated could be of great help for the students.

Dilapidated school building

Damaged roofing

Lack of electrical source

Slope of drain directly on rooms

Bito Elementary School, Marawi City

Existing Site Condition

An aerial photograph of a school campus. The image shows several buildings with various roof colors (green, brown, red, black) and a large open area in the center. The buildings are labeled as Existing Building 1, Existing Building 2, Existing Building 3, and Existing Building 4. A large area in the center is labeled as Proposed Additional Two-Classroom Building. A grassy area at the bottom is labeled as Proposed Playground. The campus is surrounded by trees and a road is visible at the bottom.

Proposed Site Development

BITO ELEMENTARY SCHOOL

Construction of Two-Classroom Building

Children cannot wait to play even if play equipments were not yet installed.

Through this simple way, it will help the children to cope up from the traumatic war they had experienced at the early stage of their lives.

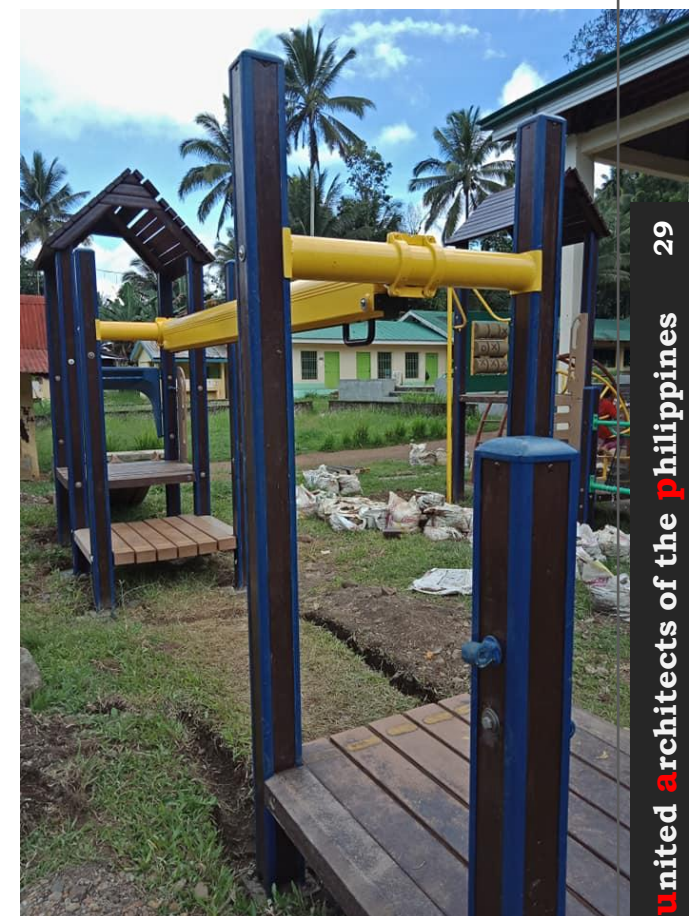

Playground

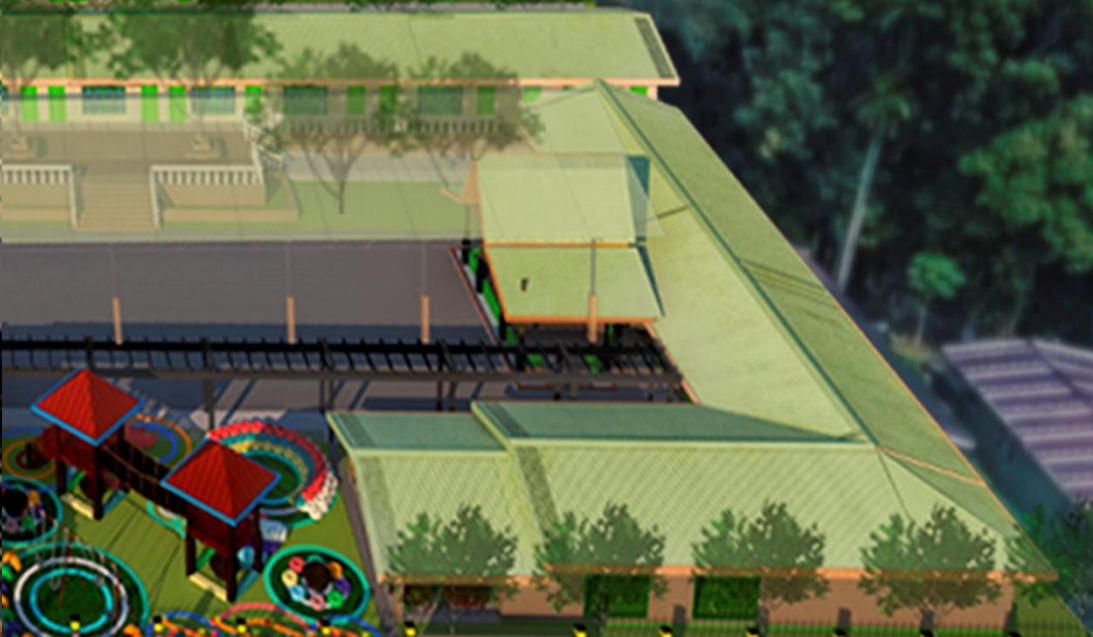

The Two-Classroom Building was designed and implemented through the efforts of United Architects of the Philippines, involved Chapters, Bayanihang Arkitektura and its corporate media and professional partners in doing CSR projects.

And the Playground, through the coordination of Philippine Association of Landscape Architects, was enhanced by engaging play equipments from “Playpoint.”

playground

Looking Ahead

Before the Marawi siege, there were 240 students, but after the war and at present it grew up to 470 students enrolled in Bito Elementary School. Therefore, the rehabilitation of the school is really needed and would be of great help.

There are 3 more buildings of the school complex to be rehabilitated. The planning and construction of toilet facilities and other utilities are set to be finished mid of year 2020.

The Electrical Engineers, Sanitary Engineers, even nurses, librarians and psychologists through the Philippine Professional Regulation Commission are all willing to voluntarily help in the holistic rehabilitation of Bito Elementary School Complex.

UAP ILIGAN CHAPTER UAP ANGELES CITY CHAPTER
in partnership with ABS-CBN Lingkod Kapamilya Foundation

Repainting of old classrooms by UAP Iligan Chapter members, school teachers, parents of the school children with the help of uniformed men of the 51st Infantry Battalion, while painting materials sponsored by Davies Paints and UAP Iligan Chapter.

The bags were sponsored by UAP Angeles City Chapter, while the hygiene kits and school supplies by UAP Iligan Chapter and Immediate Past Area D VP Trinidad Saligumba. The food for everybody was also sponsored by UAP Iligan Chapter and prepared by the parents, teachers and volunteers. Assorted breads, pastries and juices were also given by anonymous private individuals.

All of these were done through the coordination and facilitation of ABS-CBN Lingkod Kapamilya Foundation, Inc.

Project Booklat

Balele

A Joint-CSR project to provide a learning facility to Balele Elementary School

MEZZANINE FLOOR

Legend

- 1 Playground Net
- 2 Slide
- 3 Active Learning Area
- 4 Inactive Learning Area
- 5 Access Stairs

A library of experience.

What is a library for the youth of Balele?

Project Booklat's value proposition:

- 1. Community empowered.
- 2. Inclusive
- 3. Experiential
- 4. Flexible Spaces

Project Booklat envisions the library as a space of discovery, with creative spaces promoting exploration and varied ways of learning.

We have designed the facility for mobility and evolving needs, inclusive and a safe place. It hopes to instill resourcefulness and responsibility into the community.

How can the Filipino library be better?

Project Roles & Responsibilities

BALELE ELEMENTARY SCHOOL

- Beneficiary and owner of Learning Facility
- Provide requisite data for design, construction and marketing
- Facilitate approval from DepEd – Tanauan City Division, permits and licenses from LGU
- Assist in monitoring construction progress
- Property Management

JCI – TANAUAN

- Communications and Secretariat
- Promotions through traditional and digital media
- Legal Assistance
- Extends its network in the industry for possible sources of sponsorships

UAP-AYALA TRIANGLE CHAPTER

- Provide Full range of design services, from Schematic design phase to Construction Documents phase
- Provide Contract Documents needed to secure permits from LGU
- Extends its network in the industry for possible sources of sponsorships

UAP – BATANGAS LAKESHORE CHAPTER

- Provide Construction Management services for the project including but not limited to quantity surveying, monitoring the construction progress and construction budget
- Collaborate with UAP-ATC in drafting the design proposal
- Extends its network in the industry for possible sources of sponsorships
