

## AAM HISTORY

**Architects Association of Macau (AAM)**  
 March 4<sup>th</sup> 1980, a group of self-employed local architects founded Associacao dos Arquitectos em Actividade Privada em Macau (Macau Association of Architects in Private Practice) – the predecessor of AAM. The name of the association was changed to Associacao dos Arquitectos de Macau (Macau Association of Architects) and its constitution was published in the Macau Government Gazette in January 1988.

As an international recognized association of professional architects and an active member of the international organizations, AAM has maintained a close relationship with different architectural associations globally and actively involved with UIA, ARCASIA, ACA, WACA, CIALP in the past 30 years.

Many successful international conferences and events were hosted by AAM in Macau, including:

- The 7<sup>th</sup> CIALP Congress in June 1999;

Locally, through organizing activities, CPDs, field trips, courses and other less formal lunches or dinner gatherings, AAM strives to promote the fellowship among its members and that with other professionals of the building industry, as well as the government departments.
